

Directions For Use:  
USE DYNAFOG - ULV ONLY AS DIRECTED

DynaFog - ULV Solution should be applied using Dyna Fog Electric or motorized ULV applicators, or Dyna Fog thermal applicators or similar equipment, producing the correct droplet size for the target application.

**Warnings:**

Do not spray directly on, or in the presence of exposed food, feed, utensils for preparation, packing of food and surfaces. Do not expose to children or pets. Toxic to bees and fish. Store in cool dry place, away from food and utensils. To treat tobacco stores, tobacco should be covered by hessian and asphalt paper.

**Precautions:**

Avoid skin and eye contact. Wash hands and face after use. Do not inhale the spray mist or fog. Prevent contamination of foods and drinking water. Do not reuse container.

**Direction for use:**

DynaFog - ULV Solution should be used undiluted. For use indoors, close all openings during application and leave closed for two hours after application, to obtain maximum effect apply late evening and leave closed overnight. Apply once a day during peak season of flying insects until the population is under control and then reduce frequency to maintenance levels. Do application twice weekly for crawling insects.

If used as directed with the correct application equipment DynaFog - ULV Solution will not taint or leave oily residue.  
For tobacco apply every 2-3 days only allow fumigated/insect free tobacco into the warehouse.
